CBS-156 XLS

Edge Sealer for Composite Boards

DESCRIPTION
Willamette Valley Company has formulated CBS-156 XLS, as a cost effective 32.5% solids composite board sealer specifically designed to meet the needs of the composite board industry. CBS-156 XLS maintains the dimensional stability of the panels exposed to moisture by forming an elastomeric film barrier that fills voids, and is both effective and long lasting.

WHERE TO USE
• Composite Board Edge Sealer
• Industrial Mill Environments

FEATURES AND BENEFITS
• Excellent Moisture Protection
• Increases Wood Shelf Life
• Fills Voids to Seal Effectively
• Long Lasting Moisture Barrier

PACKAGING
5-gallon pails
Drums
Totes
Tank Trucks

SHELF LIFE
3 months when properly stored. Will require agitation.

STORAGE
Store this product in a clean, dry, shaded or covered environment above 45°F (7.2°C). DO NOT FREEZE.

APPLICATION
Apply one coat of CBS-156 XLS Sealer by airless spray at a film thickness of 8-10 wet mils. You can increase the film thickness for porous wood or to obtain a higher performance. Check with your Willamette Valley Company representative for directions and recommendations for use with other types of application methods. Stenciling or any recoating process should be done before the sealer has dried completely and formed an impervious film.

CLEAN-UP
The Composite Board Sealer CBS-156 XLS can be washed off with water prior to the film drying. If the sealer has dried, scrubbing with hot water and detergent is advised.

NOTES
This product is supplied to the customer in a ready-to-use form. Any addition of water will result in degradation of the product performance.
HEALTH AND SAFETY
Before handling, you should become familiar with the Safety Data Sheet (SDS) regarding the risks and safe use of this product. To obtain an SDS please call 800-333-9826 or send an email to: mds@wilvaco.com.
