WIL-SEAL EDGE Silver
Concrete Form Board Release Paint

DESCRIPTION
Willamette Valley Company has formulated a solventborne paint specifically designed to be used in the manufacture of plywood used as concrete formboards. The coating helps maintain the integrity of the boards edge when used under the conditions of forming concrete. Wil-Seal Edge coating is supplied in the color silver, but can be supplied as special order in other colors. It can be applied with many conventional paint spraying systems.

WHERE TO USE
- Concrete Form Board Manufacturing
- Coating and Recoating Form Boards

FEATURES AND BENEFITS
- Excellent Moisture Protection
- Increases Form Board Useful Life
- Vibrant Colors Attract Customers
- Available in a Variety of Colors
- Helps Prevent Checking

PACKAGING
Drums
Totes

SHELF LIFE
6 to 9 months when properly stored.

STORAGE
Store this product in a clean, dry, shaded or covered environment above 45°F (7.2°C). DO NOT FREEZE.

APPLICATION
Apply one coat of Wil-Seal Edge, as supplied by airless spray, brush or rolling at a wet film thickness of 4-6 wet mils. For porous wood or higher performance, increased film thickness is advised. For other types of application methods check with your Willamette Valley Company representative for directions and recommendation for use. Stenciling and any recoating should be done before the paint has dried completely and formed an impervious film.

CLEAN-UP
Clean equipment before paint dries completely. If the paint has dried, use mechanical removal methods.

NOTES
This product is supplied to the customer in a ready-to-use form. Any additions to reduce viscosity may result in degradation of the product performance.
HEALTH AND SAFETY

Before handling, you should become familiar with the Safety Data Sheet (SDS) regarding the risks and safe use of this product. To obtain an MSDS please call 800-333-9826 or send an email to: sds@wilvaco.com.
