Wil-Prime FC-3500
High Hide Interior Primer

DESCRIPTION
Wil-Prime FC-3500 is a water-based, modified acrylic, low VOC, interior grade primer. It is formulated to meet WDMA TM 14-10 testing requirements. Wil-Prime FC-3500 is intended to be used in a fan-coater on smooth and moulded MDF, pine and finger-jointed pine. Wil-Prime FC-3500 exhibits good build, excellent adhesion and enamel hold out with superior hide over MDF and finger jointed pine. This product accepts most water-based and alkyd top coats.

WHERE TO USE
- MDF Moulding and Flat Stock
- Solid Fir and Pine Stock
- Finger Jointed Pine

FEATUR ES AND BENEFITS
- High-Hiding
- Excellent Adhesion to the Substrate
- Buffs and Sands Well
- Excellent Enamel Hold Out
- Excellent Blocking Resistance
- Strong Adhesive Bond with most Latex Paints
- Low VOC

APPLICATION
For best results, the substrate should be clean of all sanding dust and other contaminates before painting. When using Wil-Prime FC-3500 with a fan coater, the recommended application rate is 4 to 6.5 wet mils. Primer must be dried completely before stacking and/or top coating. For all other types of application methods, please check with your Willamette Valley Company Representative for directions and recommended use. This product can be dried with conventional air, forced hot air or IR.

CLEAN-UP
Clean equipment before paint dries completely. If the paint has dried, hot water, detergent and scrubbing will be required.

NOTES
This product is supplied to the customer in a ready-to-use form. Any addition of water to reduce viscosity may result in degradation of the product performance.
