Wil-Seal 2012 Red
Composite Panel Edge Sealer

DESCRIPTION
Wil-Seal 2012 Red is formulated to seal and protect the edges of composite panel substrates from water-induced swelling. Coverage rate is dependent upon the level of performance desired, but 8-10 wet mils is recommended for protection against water penetration.

WHERE TO USE
- OSB
- Particleboard
- MDF
- OSL

FEATURES AND BENEFITS
- Excellent Moisture Protection
- Increases Wood Shelf Life
- Fills Voids to Seal Effectively
- Long Lasting Moisture Barrier

PACKAGING
Tote – 330-gal. (1249 L)
Bulk

SHELF LIFE
3 months from delivery when properly stored.

STORAGE
Store this product in a clean, dry, shaded or covered environment between 40 - 80°F (4.4-26.6°C). DO NOT FREEZE.

APPLICATION
Wil-Seal 2012 Red is designed for spray applications. For other types of application methods check with your Willamette Valley Company representative for directions and recommendation for use.

CLEAN-UP
Clean equipment before the paint dries completely. If the paint has dried, hot water, detergent and scrubbing will be required.

NOTES
This product is supplied to the customer in a ready-to-use form. Any addition of water or other liquid to change viscosity may result in degradation of the product performance.
HEALTH AND SAFETY

Before handling, you should become familiar with the Safety Data Sheet (SDS) regarding the risks and safe use of this product. To obtain an SDS please call 800 333 9826 or send an email to: msds@wilvaco.com.
