Water-Based Putty Knife-Grade
Face Grade Putty

DESCRIPTION
WB Knife-grade Putty is a polymer-based filler used to repair defects in all types of wood. It is waterborne and does not promote atmospheric pollution. This putty is formulated to be smoothly applied with a flexible putty knife. WB Knife-grade Putty has excellent adhesion to most wood substrates. It is lightfast and non-yellowing.

WHERE TO USE
• Plywood Splits
• Knot Holes

PACKAGING
Totes, Pails

SHELF LIFE
2 months when properly stored.

STORAGE
Store this product in a clean, dry, shaded or covered environment. DO NOT FREEZE.

FEATURES AND BENEFITS
• Excellent Adhesion
• Smooth Application
• Easy Sanding
• Lightfast: Non-yellowing

APPLICATION
WB Knife-grade Putty is normally applied with a putty knife onto plywood sheets with splits not larger than ¼” and knot holes not larger than ¾”.

CLEAN-UP
WB Knife-grade Putty can be washed with water prior to drying. If it has dried, steam or mechanical abrasion is recommended.

NOTES
This product is supplied to the customer in a ready to use form. Any addition of water to reduce viscosity may result in degradation of the product performance.
