DRY TIME
A thin film will dry in minutes. Thicker applications may require hours to dry. Dry time depends on temperature, humidity and thickness of film.

CLEAN-UP
Water-based Face Grade Putty 808 can be washed with water prior to drying. If it has dried, steam or mechanical abrasion is recommended.

NOTES
This product is supplied to the customer in a ready to use form. Any addition of water to reduce viscosity may result in degradation of the product performance.

CONTACT INFORMATION
