Wil-Prime SP-1128 White
With Fungicide

Interior Primer – High Hiding

DESCRIPTION
Wil-Prime SP-1128 White with Fungicide is a water-based 100% acrylic, low VOC, interior grade primer. It is formulated to achieve a smooth, bright finish with excellent hide. Wil-Prime SP-1128 White with Fungicide has excellent adhesion properties, and accepts most water-based and alkyd top coats very well.

APPLICATION

Apply Wil-Prime SP-1128 White with Fungicide by airless spray, at a minimum application rate of 4 wet mils. Primer must be dried completely before stacking and/or top coat application. For other types of application methods check with your Willamette Valley Company representative for directions and recommendation for use.

Primer coating can be dried with conventional air, forced hot air or IR.

CLEAN-UP

Clean equipment before paint dries completely. If the paint has dried, hot water, detergent and scrubbing will be required.

NOTES

This product is supplied to the customer in a ready-to-use form. Any addition of water to reduce viscosity may result in degradation of the product performance.
HEALTH AND SAFETY

Before handling, you should become familiar with the Material Safety Data Sheet (MSDS) regarding the risks and safe use of this product. To obtain an MSDS please call 800 333 9826 or send an email to: mads@wilvaco.com.
